**This certificate was awarded based on the following criteria:**

Tested under standard boundary conditions the system meets the listed requirements

Class	permeability per unit area @ 50 Pa [m <sup>3</sup> /(hm <sup>2</sup> )]
A	≤ 0,10
B	≤ 0,18
C	≤ 0,25

The manufacturer supplies coherent and comprehensive instructions for use and detailing recommendations for all system components SMARTPLY PROPASSIV Manual .pdf Adhering to these recommendations the system can greatly simplify the execution of an airtight building fabric.
